We are the New SI Youth TEAM!

Hello to all our friends,

The new Servas Youth Team has been working hard to involve more youth in Servas, and more Servas in youth!

We meet on the first Saturday of each month via video-conference using google chat. It's nice to be able to see each other's faces while we talk. Being the youth team of course we have a lot of fun, but still manage to get some work done... See below for our list of goals and accomplishments.

Our SYLE coordinator, **Gonzalo Forero of Columbia**, is proud to report that he has helped coordinate over six SYLE's so far! (What is SYLE? See below.) One of the most important innovations of the SYLE program has been a new organizational chart

created by Gonzalo, which has streamlined the planning process for each SYLE. The SYLE handbook has been updated as well, into a more user friendly format. To learn more about SYLE, write to us at: youth@servas.org.

Reut Harel of Israel and **Nauman Naseem of Pakistan** have been hard at work coordinating future SY conferences. See the bulleted list to the left for the list of Youth Conferences coming up! Stay tuned for more information.

Vivica Xiong from Hong Kong is ever-ready to keep the team on track. And we are lucky to have the expertise of **Poland's Janek Dzierzawski** working on technology for the team. Check out the video he put together! We

are waiting on the new Servas website, and the Servas Youth page will be updated at that time. In the meantime, you can stay current with the team on facebook. (www.facebook.com/servasyouth)

We are working well and running pretty smoothly, however we have a lot of work to do and a lot to learn. We are lucky to have the help of experienced Servas members, like Pablo and Ann, among many others. Thanks for your support, everyone!

Please join us any time, or feel free to write to us at: youth@servas.org.

- **Heather Mason (USA)**

3. SYLE begins: After approval of application of SYLE, send the Servas Letter of Introduction stamped (electronically) and start communication between the traveler and the organizing team in order to develop an agenda that suits the needs and interests of each part.
4. SYLE Development: Stay four weeks in

the host country performing the planned agenda. During this stage it is important to maintain communication with all parts involved. The agenda can change, remember that it is a volunteer job.

5. SYLE Completion: Upon completion of the SYLE both parts must submit an evaluation report to the NS of both countries to evaluate the benefits, inconveniences, and overall experience. It must be reported to the International Youth Committee (youth@servas.org)

Thanks so much for the support! We would love for an article to go out to Servas families, we still need places in Ecuador near Quito or Guayaquil and Columbia near Cartagena.

As far as the blog and project, it is going very well! We have plenty of information at www.followthesong.com if

you go to "the idea" page you can get some words or in the song blog you can find stories and song downloads. We also have videos on youtube.com/followthesong if you want to look at those. Thanks so much for putting us out there, we really appreciate it! :) Carolyn and Dan
