

### ***Aims of the Making Connections project***

- to link interested Servas travellers with host families who can offer a variety of opportunities for an extended stay or more in-depth visit to their country.
- Volunteering, work experience, language learning, sharing skills and knowledge and connecting with local peace organisations are examples of potential activities that could be arranged in this way.

### ***Some guidance for hosts and travellers planning an extended visit***

- Plan well ahead.
- Check out each other's expectations before confirming the visit.
- Agree a programme in advance.
- Be precise about dates and length of stay.
- Check out that you share a common language and whether the traveller needs some knowledge of the local language to do the planned activity.
- Discuss any financial costs that the traveller will need to meet such as transport, food, accommodation if not with hosts. The traveller should have sufficient resources to cover any unexpected expenses.
- The traveller should have a current letter of introduction and travel insurance with medical cover.
- Hosts are advised to avoid getting involved in any arrangements a traveller may wish to make for paid employment.
- Following the visit consider sending a short report to [makingconnections \(at\) servas.org](mailto:makingconnections@servas.org) so your experiences can be shared with others.

### **Some ideas for contributions to Making Connections :**

If you are a Servas national group or host interested in offering a contribution to Making Connections send your ideas to [makingconnections \(at\) servas.org](mailto:makingconnections@servas.org).

Some activities will involve a longer stay, from a few days to a month or more with one or more hosts. However by planning in advance other worthwhile experiences could be offered during a two night stay.

### ***Suggestions include:***

- An observation visit for one day or more to a local social, environmental or human rights project known to the host.
- A cultural programme for a few days or longer to give a traveller an appreciation of the history, diversity, language and heritage within the host's community.
- Consider offering a language learning experience with a focus.
- For example an interest in music, art, dancing, the environment, helping with a community event.
- Linking a traveller with a local peace or human rights organisation.
- Skill sharing: a host sharing skills in their field of expertise or special interest.
- Servas families with children and young people wanting to link with other host families.
- Exchanging ideas between hosts and traveller who share an interest, skill or profession.
- Host families offering a language experience in exchange for help with learning the traveller's own language.
- Observation visits or work experience to contribute to a young person's training in a specific field.
- Volunteering, e.g. in local projects known to the host, at a community event, help during harvest time - from a few days through to a more extended stay. Highlight what skills, experience or interests a traveller might need.

#### **SERVAS AUSTRIA**

Contact address: [Austria \(at\) servas.org](mailto:Austria@servas.org)

Austria is offering longer stays for both adults and young people; an individual programme would be developed by the host families, through discussion with each Servas traveller.

Depending on the age of the visitor, a variety of language learning experiences could be offered. Travellers would be able to take part in everyday activities with their hosts.

We have several families with children and young people who are very interested in youth exchanges with other countries.

For several years Servas Austria has been associated with an integrative intercultural organisation in Vienna: <http://brunnenpassage.at/>

Visitors would have a chance to participate in their activities.

In general the offers are from one to two weeks but some hosts may offer longer stays. One week stays with three or four different hosts might also be possible.

Some Day-Hosts would be willing to take part in a visitor's program for example through sports activities, language learning or visiting places of interest.

The majority of our hosts are found in Vienna and surroundings as well as the region of Linz in Upper Austria.

The local language is Austrian German. All hosts speak English, many speak Italian or Spanish.

Some financial contribution to the costs of the visit would be expected according to the circumstances of individual hosts and travellers.

If you are interested in finding out more, contact us at [Austria \(at\) servas.org](mailto:Austria@servas.org)
